

Meals on Wheels of Syracuse is committed to reflecting the diverse community in which we serve through its board, employee, volunteer and client participation and representation, and through inclusive and equitable core actions and policies, including our marketing, hiring, recruitment and outreach practices.

Diversity and equity in the workplace are paramount to the culture we are committed to fostering and are consistent with our vision of living a nourished life. Only through an environment of inclusiveness and mutual respect can people bring their full selves to work and contribute their individual personal best.
